

# VERTICAL / VERTICAL DIVIS

Design that takes into account both the shape of the radiators and their calorific performance: VERTICAL adopts the elemen-

tary shape of a vertical rectangle fitted with angled elements within the frame to boost heat output. VERTICAL DIVIS, with feet and

side brackets is the ideal radiator for creating a room divider. The angle of the fins can be chosen at the time of ordering.

## DIMENSIONS

Width 24/32/40/48/56 cm

Height 184/208/224 cm

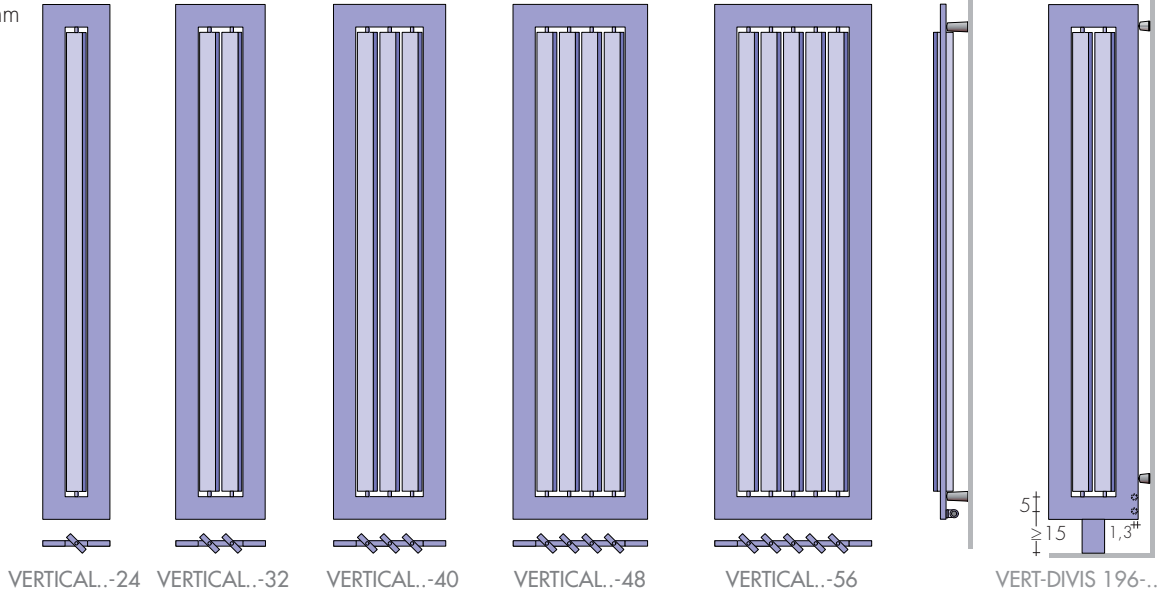

Depth 71 mm

Depth from wall 125 mm

Reverse valves  
width: 300 mm
